Juniper Green Energy Signs 150 MW Hybrid Power Purchase Agreement with NTPC

NEW DELHI, November 26th, 2026: Juniper Green Energy Limited ("Juniper Green Energy"), through its wholly owned subsidiary **Juniper Green Gem Private Limited**, has signed a Power Purchase Agreement (PPA) with NTPC Limited for a **150 MW hybrid renewable energy project**.

With this PPA, Juniper Green Energy's total contracted renewable energy capacity has increased to approximately 6.4 GWp, along with 4.3 GWh of BESS capacity, of which approximately 3 GWp and 700 MWh of BESS capacity are currently operational

Ankush Malik, Whole-time Director and CEO Juniper Green Energy said, "The signing of this PPA with NTPC marks another important step in strengthening Juniper Green Energy's hybrid renewable energy portfolio. By leveraging its hybrid configuration, the project is designed to deliver more predictable and flexible renewable power, including during peak demand hours. We see integrated hybrid and storage-led solutions playing an increasingly important role in India's energy transition and remain focused on building capabilities that support the evolving requirements of the power sector."

The PPA has a tenure of **25 years from the Scheduled Commencement of Supply Date**. The project is scheduled to achieve commercial operation by **June 2028**. The agreement further strengthens Juniper Green Energy's portfolio of integrated renewable energy projects and advances its focus on developing hybrid solutions that combine renewable generation with energy storage.

About Juniper Green Energy Limited

Juniper Green Energy Limited is an independent renewable power producer in India, focused on the development, construction and operation of utility-scale solar, wind, hybrid, and Firm and Dispatchable Renewable Energy (FDRE) projects. Since October 2018, the Company has been developing renewable energy assets across India and has built integrated capabilities spanning the entire project lifecycle, from conceptualisation and development to construction and operations. Juniper has an operational capacity of approximately 3 GWp of renewable energy and 700 MWh of BESS, and a total portfolio of more than 11 GWp and 9 GWh of BESS, comprising operational, under-construction, contracted and awarded projects. The Company is committed to delivering reliable and sustainable clean energy solutions that support India's transition to a low-carbon economy.
