JUNIPER GREEN ENERGY COMMISSIONS 105 MW SOLAR POWER PROJECT IN MAHARASHTRA

Delhi NCR, 9th April 2024: : Juniper Green Energy announces the commissioning of the Jalkot Solar Power Project in Maharashtra, enhancing the region with 105 MW of solar energy. This initiative reflects Juniper Green Energy's continued support for expanding India's renewable energy sector. The project has been commissioned in record time, almost 9 months before the Scheduled COD of the Project.

The Jalkot Solar Power Project shall deliver power under a 25-year Power Purchase Agreement (PPA) with MSEDCL which exemplifies a commitment to both economic value and environmental stewardship.

Expected to produce approximately 200 MUs annually, the project contributes to reducing Maharashtra's carbon emissions by an estimated 1,78,569 tCO₂ each year. Furthermore, it will provide power to about 38,085 households, supporting the state's transition to more sustainable energy sources.

On the commissioning, Naresh Mansukhani, CEO of Juniper Green Energy, expressed his appreciation for the team's efforts: "The start of operations of this project almost 9 months before the SCOD of the project is a tribute to our team's exceptional work. It's their perseverance and dedication to sustainability that have made this day possible. I am immensely proud of the strides we are making in renewable energy and look forward to continuing this path with the unwavering spirit and innovation that characterize our team."

About Juniper Green Energy

Juniper Green Energy is an independent renewable energy power producer and operator of solar, wind and hybrid power projects with significant experience in conceptualizing, building, and developing renewable energy assets. The company is part of the AT Group which has an asset portfolio worth of approximately US\$2.5 billion with global investments in renewable energy, residential & commercial real estate, hospitality etc. The Group has been building utility scale renewable energy projects in India since 2010 and built and owned Orange Renewable, a 1GW renewable energy platform in the past.

Juniper Green Energy, based out of Delhi NCR, commenced operations in October 2018. The business has experienced rapid growth, and it presently has an operational portfolio of about 1 GW with an under-construction capacity of 500 MW and a development pipeline of more than 5 GW of solar, wind and hybrid projects. The company has end-to-end internal competencies in EPC and O&M services for its renewable projects.
