JUNIPER GREEN ENERGY COMMISSIONS ITS MAIDEN WIND POWER PROJECT IN GUJARAT

Delhi NCR, 16th April 2024: Juniper Green Energy has announced the commissioning of its maiden wind power project, contributing 70 MW to Gujarat's renewable energy capacity. Currently, 25.2 MW is operational as part of the project's progressive rollout. The project has been commissioned in record time, almost 9 months before the Scheduled COD of the Project.

This project shall deliver power under a 25-year Power Purchase Agreement (PPA) with GUVNL at a tariff of ₹2.90, aligning with efforts to provide cost-effective and environmentally responsible energy solutions.

The project is expected to produce around 230 MUs of electricity per year, aiding in Gujarat's renewable energy efforts and reducing carbon emissions by an estimated 2,13,055 tonnes annually. This initiative will supply power to approximately 45,440 households, showcasing Juniper Green Energy's role in promoting renewable energy adoption.

On the commissioning, Naresh Mansukhani, CEO of Juniper Green Energy, expressed his appreciation for the team's efforts: "The start of operations for our first wind power project and that too in record time is a tribute to our team's exceptional work. It's their perseverance and dedication to sustainability that have made this day possible. I am immensely proud of the strides we are making in renewable energy and look forward to continuing this path with the unwavering spirit and innovation that characterize our team."

About Juniper Green Energy

Juniper Green Energy is an independent renewable energy power producer and operator of solar, wind and hybrid power projects with significant experience in conceptualizing, building, and developing renewable energy assets. The company is part of the AT Group which has an asset portfolio worth of approximately US\$2.5 billion with global investments in renewable energy, residential & commercial real estate, hospitality etc. The Group has been building utility scale renewable energy projects in India since 2010 and built and owned Orange Renewable, a 1GW renewable energy platform in the past.

Juniper Green Energy, based out of Delhi NCR, commenced operations in October 2018. The business has experienced rapid growth, and it presently has an operational portfolio of about 1 GW with an under-construction capacity of 500 MW and a development pipeline of more than 5 GW of solar, wind and hybrid projects. The company has end-to-end internal competencies in EPC and O&M services for its renewable projects.
