

Juniper Green Energy and Envision Energy ink strategic partnership towards development of Wind Energy projects

JUNIPER GREEN ENERGY INKS PACT WITH ENVISION ENERGY FOR DEVELOPMENT OF WIND PROJECTS IN GUJARAT

Delhi NCR, February 2024: Juniper Green Energy and Envision Energy ink a strategic partnership for development and delivery of Wind Turbine Generators (WTGs) of a total quantum of 300 megawatt (MW) in Devbhoomi Dwarka District, in the State of Gujarat.

As per the partnership, Envision would supply 91 units of EN 156-3.3 MW WTGs and would be overseeing the installation, commissioning and maintenance of all WTGs. The project is expected to be commissioned in a phased manner by the end of 2025 and will produce 1000GWh units of clean energy annually, significantly accelerating India's progress towards achieving its net-zero emissions goals.

Naresh Mansukhani, CEO, Juniper Green Energy Pvt. Ltd., expressed his jubilation stating "We are happy to collaborate with Envision Energy for the development of this wind project. This collaboration with Envision Energy is testament of our dedication towards building a sustainable future.

RPV Prasad, CEO, Envision Wind Power Technologies India said, "It is a happy moment for us as we partner with Juniper Green Energy to leverage India's wind energy potential in Gujarat. As part of our commitment to the Atmanirbhar Bharat vision, we would be assembling the nacelle and hubs for the wind turbines at our Pune factory, while towers and blades will be sourced locally. The booming Indian wind energy landscape would play a pivotal role in propelling the country towards net-zero."

Mr. Kane Xu, Global Vice President of Envision Energy and Chairman of Envision Energy India, said, "It has become critical to collaborate for accelerating green energy transition to avert the climate crisis. This

partnership is a testament to our commitment to solving the challenges for a sustainable future. Together with Juniper, we can develop reliable renewable energy solutions in India.”

This relationship reflects the spirit of cooperation required to achieve global energy transition. Juniper Green Energy and Envision Energy want to help create a sustainable and green future by utilizing their unique capabilities to accelerate adoption of renewable energy in India.

About Envision

Envision Energy is a world-leading green technology company, providing renewable energy system solutions for global enterprises, governments and institutions. With the mission of ‘solving the challenges for a sustainable future’, Envision Energy continuously reduces the production, storage, and synergy costs of renewable energy through technological innovation. Encompassing three major business sectors - Smart Wind Turbines, Energy Storage, and Green Hydrogen Solutions, Envision Energy collaboratively constructs comprehensive solutions for energy transformation. It also manages Envision-Hongshan Carbon-Neutral Fund and owns Envision Racing Formula E team, who conquered the Formula E Teams' Championship in 2023.

Today, Envision Energy leverages its global network of R&D and engineering centers across China, the United States, UK, France, Germany, Denmark, etc. to continuously lead global green technology development. Envision Energy joined the Science Based Targets initiative (SBTi) and committed to achieving the "Business Ambition for 1.5°C" in 2021. It has achieved carbon neutrality across its global operations by 2022 and will achieve carbon neutrality throughout its value chain by 2028.

Envision was ranked second in Fortune's 2021 “Change the World” list and was ranked among the Top 10 of the 2019 'World's 50 Smartest Companies' by the MIT Technology Review.
